Product Disclosure Statement

Dated 8 November 2017

This document replaces the Product Disclosure Statement dated 4 August 2017.

Issued by AMP Investment Management (N.Z.) Limited

This document gives you important information about this investment to help you decide whether you want to invest. There is other useful information about this offer on www.companiesoffice.govt.nz/disclose. AMP Investment Management (N.Z.) Limited has prepared this document in accordance with the Financial Markets Conduct Act 2013 (**FMC Act**). You can also seek advice from a financial adviser to help you to make an investment decision.

1. Key Information Summary

What is this?

This is a managed investment scheme. Your money will be pooled with other investors' money and invested in various investments. AMP Investment Management (N.Z.) Limited will invest your money and charge you a fee for its services. The returns you receive are dependent on the investment decisions of AMP Investment Management (N.Z.) Limited, and of its investment managers and the performance of the investments. The value of those investments may go up or down. The types of investments and the fees you will be charged are described in this document.

What will your money be invested in?

There are five investment options offered under this Product Disclosure Statement (PDS).

These investment options are summarised below. More information about the investment target and strategy for each investment option is provided in section 3 of the PDS, "Description of your investment options" on page 6.

Who manages the AMP Capital Global Shares Funds?

The manager of the funds is AMP Investment Management (N.Z.) Limited (**Manager**).

See section 7 of the PDS, "Who is involved?" on page 9 for more information about us.

How can you get your money out?

You may at any time request the redemption of some or all of your investment. For each fund, payment will normally be made within 10 business days of the Manager receiving a redemption request from you.

We reserve the right to refuse a redemption request for less than \$50 or a redemption request that would result in you holding less than \$50 of units (except where all of your units are to be redeemed). We also have the ability, in certain circumstances, to suspend redemptions (for instance, where we believe, in good faith, that it is not practicable or would be prejudicial to investors' interests for the Supervisor to realise assets or borrow to permit redemptions - this could be because of market or asset conditions or other circumstances).

See section 2 of the PDS "How does this investment work?" on page 5 for more information.

How will your investment be taxed?

All of the funds offered under this PDS are Portfolio Investment Entities (PIEs).

The amount of tax you pay in respect of a PIE is based on your Prescribed Investor Rate (**PIR**). To determine your PIR go to www.ird.govt.nz/toii/pir/.

See section 6 of the PDS "What taxes will you pay?" on page 9 for more information.

Where can you find more key information?

AMP Investment Management (N.Z.) Limited is required to publish quarterly updates for each fund. The updates show the returns, and the total fees actually charged to investors, during the previous year. The latest fund updates are available at www.ampcapital.co.nz. The Manager will also give you copies of those documents on request.

2. How does this investment work?

This PDS is an offer to purchase units in the AMP Capital Global Shares Funds. Each of the funds offered under this PDS is constituted within a managed investment scheme that is governed by a trust deed dated 24 November 2015 (the AMP Capital Investment Retail Funds Trust Deed).

The money you invest buys units in the fund or funds you choose. Each fund invests in assets, such as shares. The units do not give you legal ownership of the fund's assets but they do give you rights to the returns from the assets.

The price of each unit depends on the value of the fund at the time you invest and any buy spread that applies to that fund. We calculate the unit price for a fund by dividing the Current Value of the fund by the number of units the fund has issued. The unit price is calculated daily.

A change in the value of the fund's assets affects the value of your units. The unit price for a fund will change as the market value of that fund's assets changes.

The number of units you have, when multiplied by the unit price, gives you the total value of your investment in any one fund (although the impact of tax can result in a change in the number of units you hold, up or down).

The assets of a fund are not available to meet the liabilities of any other fund in the scheme.

Investing in managed funds can help you achieve your savings goals and create greater wealth for the future by offering you:

- **Diversification.** Pooling together large amounts of money enables fund managers to invest in a spread of assets which allows diversification and aims to reduce the risk of your investment portfolio. It also provides access to markets and securities that might otherwise be out of reach.
- **Professional management.** Employing the expertise and resources of a professional manager is particularly beneficial if you do not have the time or the skill to manage your own investments.
- **Simplified investing.** Fund managers take care of the paperwork involved in buying, selling, reporting and record keeping.

The return on your investment comes from any increase or decrease in the unit price.

The funds offered under this PDS do not make distributions. Accordingly, any income of these funds is reflected in their unit price.

Making investments

You can make an investment in any of the funds by completing the application form at the back of this PDS or invest online at www.ampcapital.co.nz.

You may invest in one or more funds as long as you invest a minimum of \$50 in each fund. When you make an investment in a fund, we will issue units at the unit price for that fund adjusted for the applicable buy spread for that fund.

We also offer these funds via selected administration and custodial services. When reading this PDS you should remember that if your investments are made through an administration and custodial service they will be held by a custodian on your behalf. You should refer to the administration and custodial service terms and the relevant marketing information about investing in the funds through that service.

Withdrawing your investments

You may request a redemption of some or all of your investment at any time. For each fund, payment will normally be made within 10 business days of our receiving a redemption request from you. However, we have the ability, in certain circumstances, to suspend redemptions (for instance, where we believe, in good faith, that it is not practicable or would be prejudicial to investors' interests for the Supervisor to realise assets or borrow to permit redemptions – this could be because of market or asset conditions or other circumstances).

When you redeem all or part of your investment from a fund, we will redeem your investment at the unit price for that fund adjusted for the applicable sell spread for that fund.

We reserve the right to refuse a redemption request for less than \$50 or a redemption request that would result in you holding less than \$50 of units (except where all of your units are to be redeemed).

How to switch between funds

You may at any time request to switch your investment between the funds offered under this PDS or to any other AMP Capital Investment Fund offered by us. A switch will be treated as a redemption from one fund or funds and an application into the other fund or funds.

You will not be charged a switch fee but the buy and sell spreads will apply on each redemption and application under the switch. More information about the buy and sell spreads can be found on in section 5 of the PDS "What are the fees?" on page 7.

This PDS provides information on the AMP Capital Global Shares Funds. Information on other AMP Capital Investment Funds not offered under this PDS is provided in the following PDS documents:

Further information about the assets in each fund can be found in the fund updates at www.ampcapital.co.nz.

4. What are the risks of investing?

Understanding the risk indicator

Managed funds in New Zealand must have a standard risk indicator. The risk indicator is designed to help investors understand the uncertainties both for loss and growth that may affect their investment. You can compare funds using the risk indicator.

See section 1 of the PDS, "Key information summary" on page 2 for the risk indicators for the funds offered under this PDS..

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down (volatility). A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.sorted.org.nz.

Note that even the lowest category does not mean a risk-free investment, and there may be other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the five years to 30 September 2017. While risk indicators are usually relatively stable, they do shift from time to time. You can see the most recent risk indicator in the latest fund updates for these funds.

General investment risks

Some of the things that may cause the funds' value to move up and down, which affect the risk indicator, are:

Market risk

Market risk is the risk of losses in a fund's investments arising due to the market prices of those investments changing.

This is of significance to the Global Shares Funds offered under this PDS as the assets of those funds are market linked, and are therefore susceptible to general market fluctuations and individual security price fluctuations.

Currency risk

Currency risk is the risk of exchange rate fluctuations between the New Zealand dollar (the currency in which the funds are valued) and foreign currencies.

Currency risk will affect funds that invest in offshore assets that are not fully hedged back to New Zealand dollars. The AMP Capital Global Shares Funds all have some or all of the assets invested offshore and therefore the returns of these funds can be affected by movements between the New Zealand dollar and other currencies if they are not adequately hedged.

The currency management policy for each fund is detailed in the SIPO.

Liquidity risk

In volatile market conditions, a fund's assets may not necessarily be as easily realisable as they may have been at a previous point in time, or may only be able to be realised at a lower value than might be expected in normal market conditions. This could have a negative effect on the value of a fund's assets and its performance, and in turn may affect the value of your investment and the returns you receive from the fund.

5. What are the fees?

You will be charged fees for investing in the AMP Capital Global Shares Funds. Fees are deducted from your investment and will reduce your returns. If any of the funds invest in other funds, those other funds may also charge fees. The fees you pay will be charged in two ways:

Regular charges - for example annual fund charges. Small differences in these fees can have a big impact on your investment over the long term.

One-off fees - for example the initial buy spread.

Annual Fund Charges

	MANAGEMENT FEES (excluding GST)	ESTIMATED ADMINISTRATION CHARGES (including GST)	ESTIMATED PERFORMANCE-BASED FEES (including GST)	TOTAL ANNUAL FUND CHARGES
Global Shares Fund	1.00%	0.21%	0.01%	1.22%
Core Global Shares Fund	1.15%	0.20%	0.01%	1.36%
Core Hedged Global Shares Fund	1.15%	0.22%	0.01%	1.38%
Emerging Markets Shares Fund	1.35%	0.27%	0.08%	1.70%
Responsible Investments Leaders Global Shares Fund	1.35%	0.16%	0.00%	1.51%

Management fees - We charge an annual management fee to each fund as set out above. GST is currently charged at 15% on 10% of the management fee in accordance with the non-binding IRD agreement with the Financial Services Council of New Zealand Incorporated on behalf of the funds management industry. GST on management fees is currently under review and therefore this percentage may change in the future.

Administration charges - These charges cover the general management of the fund e.g. supervisor, legal, custodian and audit fees. Subject to the exception noted below, they also cover charges payable in respect of the underlying funds that the above funds invest in, including performance fees in non-related underlying funds. These charges are an estimate. Actual charges over the previous 12 months are available in the latest fund update.

We are unable to determine fund charges charged by non-related underlying funds that are listed on a stock exchange so have omitted them from the estimated administration charges figure. We do not expect these charges to be material.

Performance-based fees - These are performance fees in related underlying funds. These fees are an estimate based on the investment manager's average positive outperformance over the last five years as described in more detail on the offer register at www.companiesoffice.govt.nz/disclose in the document titled 'Other material information'. Actual fees for the previous 12 months are available in the latest fund update. More information about these fees is set out below.

Performance-based fees

The AMP Capital Global Shares Funds, other than the AMP Capital Responsible Investment Leaders Global Shares Fund, invest in related underlying funds that have performance fees. These performance fee arrangements are summarised below.

Emerging Markets Shares Fund - invests in the Future Directions Emerging Markets Share Fund, a related underlying fund which has three external investment managers. Each of these investment managers charges a performance fee on their respective portfolios. These performance fee arrangements are:

INVESTMENT MANAGER 1

Hurdle rate of return 1	Benchmark Index: MSCI Emerging Markets Index (net dividends reinvested and unhedged)
Hurdle rate of return 2	1.375% per annum
Amount of performance fee	10% of the portfolio's performance above the Benchmark Index, but only if the portfolio's performance is at least 1.375% per annum
Maximum limit	0.156% of the portfolio's value at the beginning of the quarter
High water mark	See below
Frequency of calculation and payment	Calculated monthly and paid quarterly

INVESTMENT MANAGER 2

Hurdle rate of return 1	Benchmark Index: MSCI Emerging Markets Index (net dividends reinvested and unhedged)
Hurdle rate of return 2	1.00% per annum
Amount of performance fee	7.5% of the portfolio's performance above the Benchmark Index, but only if the portfolio's performance is at least 1.00% per annum
Maximum limit	0.0875% of the portfolio's value at the beginning of the quarter
High water mark	See below
Frequency of calculation and payment	Calculated monthly and paid quarterly

INVESTMENT MANAGER 3

Hurdle rate of return 1	Benchmark Index: MSCI Emerging Markets Index (net dividends reinvested and unhedged)
Hurdle rate of return 2	1.30% per annum
Amount of performance fee	15% of the portfolio's performance above the Benchmark Index, but only if the portfolio's performance is at least 1.30% per annum
Maximum limit	0.20% of the portfolio's value at the beginning of the quarter
High water mark	See below
Frequency of calculation and payment	Calculated monthly and paid quarterly

Core Global Shares Fund - invests in two related underlying funds which have performance fee arrangements with the external investment managers of those funds. These arrangements are:

WHOLESALE UNIT TRUST GLOBAL SHARES FUND 3

Hurdle rate of return	Benchmark Index: MSCI World Index (net dividends reinvested and unhedged)
Amount of performance fee	10% of the fund's performance above the Benchmark Index
Maximum limit	0.1375% of the fund's value at the beginning of the quarter
High water mark	See below
Frequency of calculation and payment	Calculated monthly and paid quarterly

WHOLESALE UNIT TRUST GLOBAL SHARES FUND 5

Hurdle rate of return	Benchmark Index: MSCI World Index (net dividends reinvested and unhedged)
Amount of performance fee	12.5% of the fund's performance above the Benchmark Index
Maximum limit	0.1875% of the fund's value at the beginning of the quarter
High water mark	See below
Frequency of calculation and payment	Calculated monthly and paid quarterly

All performance fees described above have a 'high water mark'. This means they are calculated on a cumulative basis relative to the Benchmark Index so that any performance under the Benchmark Index in a particular quarter must first be recovered in following quarters before performance fees are paid.

Global Shares Fund - invests in the Core Global Shares Fund and the Emerging Markets Shares Fund and therefore indirectly will bear a proportionate share of any performance fee that is charged by the external investment managers of the underlying funds in which these funds invest.

Core Hedged Global Shares Fund - invests in the Core Global Shares Fund and therefore indirectly will bear a proportionate share of any performance fee that is charged by the external investment managers of the underlying funds in which the Core Global Shares Fund invest.

Individual Action Fees

Buy/Sell spreads

	BUY SPREAD	SELL SPREAD
Global Shares Fund	0.22%	0.22%
Core Global Shares Fund	0.22%	0.22%
Core Hedged Global Shares Fund	0.22%	0.22%
Emerging Markets Shares Fund	0.30%	0.30%
Responsible Investments Leaders Global Shares Fund	0.25%	0.25%

Explanation

Buy/Sell spreads - When you enter or leave a fund, any buy or sell spreads applicable at that time will be a cost to you. The buy spread is added to the unit price on entry to the fund, and the sell spread is deducted from the unit price on exit from the fund. The buy/sell spreads belong to the fund and are not fees paid to us or any investment manager. The purpose of buy/sell spreads is to make sure that any transaction costs incurred as a result of an investor entering or leaving the fund are borne by that investor, and not other investors in the fund. There is no GST charged on buy/sell spreads.

There are no other one-off fees currently being charged to any of the funds offered under this PDS.

Example of how fees apply to an investor

Kate invests \$10,000 in the Emerging Markets Shares Fund. A buy spread of 0.30% is incorporated in the unit price that she pays for her investment. This equates to \$30.

This brings the starting value of her investment to \$9,970.

She is also charged management and administration fees, which work out to about \$169 (1.70% of \$9,970). These fees might be more or less if the value of her investment has increased or decreased over the year.

The underlying fund into which the Emerging Markets Shares Fund invests may also charge a performance fee if that fund earned more than its target. Any performance fee charged in an underlying fund will be reflected in the value of her investment in the Emerging Markets Shares Fund.

Estimated total fees for the first year

Individual action fees: \$30

Fund charges: \$169

See the latest fund update for an example of the actual returns and fees investors were charged over the past year.

This example applies only to the Emerging Markets Shares Fund. If you are considering investing in other funds in the scheme, this example may not be representative of the actual fees you may be charged.

The fees can be changed

We can change fees from time to time. We can also add new fees. The rules about fee changes are in the Trust Deed which can be found on the scheme register at www.companiesoffice.govt.nz/disclose.

AMP Investment Management (N.Z.) Limited must publish a fund update for each fund showing the fees actually charged during the most recent year. Fund updates, including past updates are available on the offer register at www.companiesoffice.govt.nz/disclose.

6. What taxes will you pay?

Each fund is a Portfolio Investment Entity. The amount of tax you pay is based on your PIR. To determine your PIR, go to www.ird.govt.nz/toii/pir/. If you are unsure of your PIR, we recommend you seek professional advice or contact the Inland Revenue Department. It is your responsibility to tell the Manager (or, if you invest through an administration and/or custodial service, the provider of that service) your PIR when you invest or if your PIR changes. If you do not tell the Manager (or the provider of the administration and/or custodial service you invest through, if applicable), a default rate may be applied. If the advised PIR is lower than the correct PIR, you will need to complete a personal tax return and pay any tax shortfall, interest, and penalties. If the default rate or the advised PIR is higher than the correct PIR, you will not get a refund of any overpaid tax.
